

## ΨPSIDA™ ZEV Solar Power and Electric Vehicles

*We are powered by the Sun, how much was your last fillup?*

### ΨPSIDA ZEV RoadRunner **BEEP! BEEP!**

A fully enclosed three wheel vehicle that can be used on the highway. Forget about golf carts and low speeds. This will get you to town and around town. Ten times the kWh capacity from our batteries compared to the competition which provides real hill climbing capability when fully loaded.

**\*Quiet operation and no moving parts or heat near operator or passengers providing a quiet and safe ride.**

**\*Excellent inner city capability with driving speeds up to 62 mph (100 kmh). A 40 mile range! Full US DOT certified! Aka, highway and road legal! You own a taxi service? Think about how easy this is to drive around in the inner city.**

**\* Much faster then a golf cart, why are you driving THAT around on the beach or island?**

**\*Full charging within 4 hours, (2.5 hours at 220 to 240 V) 20% to 80% top up in 20 minutes.**

**\*Customer can decide on Lead Silicone battery or LiFeMnPbO4 batteries balancing out price versus weight. Approximately a 2x extended range option using twice the battery storage with the Lithium batteries.**

**BASE MODEL PRICING. Discounts for multiple units are available. Battery chargers included in the price**

5100 (60 volt system, 5.7 kwh battery), 5 kw motor , Lead silicone battery	\$7,630
