MESSAGE FROM FEDERATION COMMAND

The Federation Guard Scenario Paintball Team is based out of Tactical Paintball in Harwood, TX. Our Team Members hail from San Antonio, Austin, Houston and all points in between.

The team was officially formed on March 16, 2008 by the four founding members: Dragon Lady, Patches, Bounty Hunter, and Possum. Through the hospitality shown to players new to the sport and the reputation built by the founding members, the team has grown its ranks to its present size of nearly 20 Active and Reserve members.

The team is a hard hitting, light infantry force that can be deployed for a variety of missions. The team brings a can do, never back down attitude to the field. In addition to the tactical strengths of the team, the qualities of Honor, Integrity, and Sportsmanship are central to the conduct of Federation Guard operations.

...the qualities of Honor, Integrity, and Sportsmanship are central to the conduct of Federation Guard operations.

TEAM NEWS

A small contingent of the Guard, Dragon Lady and Young Guns Scorpion and Menace, joined Team Total Insanity at TXR paintball in Houston for the 8 hour Fractured Fairy Tales event. They helped Red Team take the victory.

A team practice was held at Tactical Paintball on 25 Feb. Many members were in attendance and it was a great day of paintball. We got in a team practice as well as working with rec players on the field to help them along in the sport. Curious George remained at the field after practice to help the field staff referee some of the rec games going on showing a great commitment to the sport and supporting our home field!

The Federation Guard is gearing up for the "Fighting Seabees 2" 12 hour scenario at Tactical Paintball in Harwood, TX. We will be aiding the American side as the Seabees build a fuel depot while under constant assault from the Japanese forces in the area.

It has been decided for the Total War game in May that the Federation Guard will play on the American side for the British SAS contingent. Each unit has limited space available so register now at tacticalpaintball.com!!

SPONSOR NEWS

Valken: www.valken.com Tri-State Special Operations Command (TSSOC) is proud to announce their sponsorship agreement with Valken, makers of legendary paintballs including Redemption and Graffiti as well as an amazing line of V-Tac tactical scenario gear and apparel. Will Bourgault, Valken Brand Manager stated, "After meeting these players and seeing their style of play, enthusiasm and willingness to be an extension of the Valken Corps, we were proud to bring them on as part of the Valken Corps family of teams." "We could not be happier with this deal," said Chris "Topher" Matsinger, TSSOC's team captain. "The V-Tac line of tactical gear is perfect for our team More at <http://www.paintballx3.com/latest/tssoc-joins-forces-with-valken.html>

TEAM MEMBER PROFILE: DOC PAPPY J

DOB: 8-Dec-1954

Hometown: Born in Vincennes, Indiana but lived in many small communities in Indiana as he was growing up due to his father's work with the USDA.

Funniest thing witnessed at a Team event: There are several but here is one. At Blackhawk Down, as Greybeard and I were engaged with the enemy we heard a pitiful sounding "Help me...". We figured out the call was coming from figure who was crouched in a ball getting as small as he could behind a little clump of trees while the enemy was throwing lots of paint his way. He says "I'm out of paint!", so with Greybeard covering I charged across the open ground under heavy fire and give him one of my pods. I made it there and back without getting hit. We had a big laugh after that "Help me...!"

Favorite piece of gear: Back-up pistol- I use a lot of paint running with the Fed guard, having the back-up pistol is a nice extra sense of security to have. I can't hit the broadside of a battleship with it, but what the hey...I'm packing!!

Something the Team may not know about me: I'll share three! I'm an ordained lay-pastor, I am an Eagle Scout, and I am a professional clown with a degree from Clown College!

TEAM ANNOUNCEMENTS

All members are encouraged to get the team jersey, Valken V-cam, when they are able. When you are ready to order from one of our sponsors be sure to talk to Dragon Lady first.

We are currently in discussions with Khaos Company about the team building. Patches and Dragon Lady will let us know as details come available.

We want to welcome, "Boogman" a new member who joined us at last practice! HooRaah!

The Guard also wants to congratulate one of our Young Guns, who has been accepted into his schools JROTC program. Way to go Scorpion! HooRaah!

CHALLENGE! As most of you know, the Federation guard has its roots in the founding members love of the Sci-Fi world, especially Star Trek. Our very own Patches is CO of the San Antonio Star Fleet Chapter: USS Bexar. This organization celebrates the principles set forth by Star Fleet and helps the community through community service. At the last meeting, another Star Fleet Chapter: USS Joan of Arc; of Corpus, issued a challenge. The Starfleet Marines have challenged the Federation guard to a paintball showdown. This match-up for Star Fleet bragging rights is planned for the practice on 21 April! Prepare to Engage!
