Dear Harrisburg Area Supporter:

Please consider supporting the YWCA Greater Harrisburg's domestic violence program. Our program services include counseling, safe shelter, prevention education to youth and community members, hospital and legal accompaniments as well as advocacy within our community for domestic violence and sexual assault survivors.

Your support provides the necessary means to purchase blankets, pillows, hygiene products and other accommodating necessities for the women and children living in our domestic violence shelter.

In a time when domestic violence remains unseen and countless families and children suffer, all forms of awareness provide hope to so many living without safety. The YWCA, as do our client families, appreciates your thoughtfulness and thank you so much for your support.

Sincerely,

  
Tina L. Nixon  
Chief Executive Officer
