

Community Forums:

Help create great places to live, work and visit

Major development is coming to Wokingham Borough with about 13,000 homes to be built in the years up to 2026.

With your help, we can make sure that developments:

- Complement the borough's character and heritage
- Bring the schools and family facilities needed
- Have good transport links that work for everybody
- Boost the local economy and create local jobs
- Feature parks, playgrounds and other leisure facilities
- Include the right health and community facilities

Get involved

Five **Community Forums** have been set up (four in the major development areas plus one in Woodley) to offer you the chance to influence what they look like and what community facilities are included. The development areas are:

- South of the M4 (around Shinfield, Spencers Wood, Three Mile Cross)
- Around Arborfield
- North of Wokingham Town
- South of Wokingham Town
- Woodley
